FINANCIAL ACCOUNTING AND REPORTING

N Nail the Concepts

Read your NINJA Book before doing ANY MCQ. Begin reading the NINJA Notes and listening to the NINJA Audio - even if you haven't covered a particular subject in the NINJA Book. One key to success is to listen to the NINJA Audio and read the NINJA Notes as many times as possible in the weeks leading up to the exam.

Intense Notes

As you are Nailing the Concepts by reading the NINJA Book and NINJA Notes and listening to the NINJA Audio, take Intense **Notes**. The goal is to never have to go back and re-read the book because you've written down the key concepts covered.

Non-Stop MCQ

You've read your NINJA Book and the NINJA Notes. You've listened to the NINJA Audio. You've taken Intense Notes and have a killer stack of Keywords and Notes going. Now it's time to dive into NINJA MCQ. If you miss a question, write down the Keywords and Notes that the question is testing you on and add it to your stack of notes. If you get a question correct, but think you'll forget the concept later on, write it down.

Just Re-Write It

It's tedious. It's awful. It works. The process will take about a week, so plan accordingly. Take your stack of notes and re-write them into the Keywords and Notes area of this study planner (you'll likely need to make multiple copies of each page). The easy road is to skip this step. Don't take the easy road - it will pay dividends on Exam Day.

All Comes Together

You've Nailed the Concepts. You've taken Intense Notes. You've worked MCQ until you hate life. You even hate the word "NINJA" at this point. You've re-written your Keywords and Notes. This is where it all comes together. Carry your stack of Keywords and Notes everywhere you go. Watch the NINJA Blitz Videos, review NINJA Plus, listen to MCQ Audio, and read through the NINJA Flashcards. Make a list of your weakest MCQ topics and work backwards. Start with your weakest and do 20 guestion "minitestlets" until you score in the 70s and move to your next weakest topic. Finish your Review and then go give your Exam a Reverse-Roundhouse Kick in the face.

Nail the Concepts

- ✓ Read the NINJA Book cover to cover
- ✓ Read NINJA Notes in your down time instead of social media, etc.
- ✓ Listen to NINJA Audio 24/7 in the car, at the gym, etc.
- ✓ Take Intense Notes while reading the NINJA Book and Notes and listening to the NINJA Audio (see page 6).
- ✓ Don't move on to the MCQ until you have read the complete NINJA Book or have gone past the time you've budgeted for the book. If you get behind - it's ok to skim and read the examples. It's more important to stay on schedule.

Intense Notes

- ✓ As you read the NINJA Book and NINJA Notes, and listen to the NINJA Audio, take intense notes. The goal is to never have to go back and re-read the book because you've written down the key concepts covered.
- Take Notes while reading the NINJA Book

Throw away your highlighter and pick up your pen! According to Harvard Library:

"Throw away your highlighter: Highlighting can seem like an active reading strategy, but it can actually distract from the business of learning and dilute your comprehension. Those bright yellow lines you put on a printed page one day can seem strangely cryptic the next, unless you have a method for remembering why they were important to you at another moment in time. Pen or pencil will allow you to do more to a text you have to wrestle with."

Keywords Notes Montgage Interest deductible on loans up to \$1M. HOME MORTGAGE INTEREST Home Equity Interest deductible on loans up to \$100K.

As for the actual notes, we recommend using the Cornell Method for note-taking, a method preferred by universities and other learning centers. The basic idea is that the left side of your page will contain keywords, key concepts, or questions while the right side of your page will contain general notes that correspond to the keywords and concepts on the left. The bottom of the page is reserved for you to write a summary of what is contained on that page.

Non-Stop MCQ

Do not start the MCQ until you've read the NINJA Book (or you've surpassed the time budgeted in your study plan for the NINJA Book).

- ✓ Dive into NINJA MCQ
- ✓ The software knows what you do not based on the questions you answer incorrectly.
- ✓ If you miss a question, write down the "main point" of the question as a Keywords and Notes and add it to your stack of notes.
- ✓ If you get a question correct, but think you'll forget the concept later on, write it down.
- ✓ There are two phases to NINJA MCQ:
 - 1. The Evaluation Phase (the first 15% of the material, which figures out what you know — and what you don't),
 - 2. The RECON Phase (the software tailors the questions to help you improve in the areas where you are weakest).
 - 3. After completion of the Evaluation Phase, the RECON Phase and its progress bar will be enabled. During this phase, you will be presented with MCQ using our proprietary algorithm that is designed for your optimal retention of the study material. The RECON progress bar will reflect the percentage of correctly answered questions out of the total questions present in the course.

Just Rewrite It

It's tedious. It's awful. **It works.** The process will take about a week, so plan accordingly. Two weeks out from your exam sounds about right. Take your stack of notes and rewrite them into the Keywords and Notes area of this Study Planner (you'll likely need to make multiple copies of each page). The easy road is to skip this step. Don't take the easy road - it will pay dividends on Exam Day.

The ELL Plan™

Schedule

- ✓ With the ELL PlanTM you will exceed the recommended 130 study hours in seven weeks.
- ✓ You will incorporate 25 hours of studying into each week using the Early-Lunch-Late method.
- ✓ You have an extra five hours of study time built in to allow for the unexpected.

The Early Late Lunch Plan is simple. The sacrifice is not. The idea is that you set a schedule, make a habit it of it over the course of the 7 weeks necessary to pull this off.

How it works:

Get up 1.5 hours earlier than normal. If you are already getting up at 4, don't shake your head in disgust. This plan isn't for you. For those who normally get up at 6 or 6:30 am, start getting up at 4:30 or 5. Stumble to the coffee pot (which you loaded the night before) and hit the "go" button.

ARLY

While the coffee is brewing, go take a quick shower and wake up. Head back to the coffee, grab a cup and sit down at your computer and books (which you also set up the night before).

Study for an hour.

Notice that checking your e-mail, Facebook, sports sites, or news was nowhere in this sequence.

LUNCH

Say no to the co-workers heading down the street to grab lunch and talk about how dumb their boss is for an hour. You take your lunch to your desk (which you also packed the night before). Start eating and hit play on your NINJA Audio.

Your legal pad and pen will get food smears on it while you take notes, as will your mouse, but who cares. Same rule applies as the morning: no e-mail or Internet.

Study for an hour.

ATE

This is where it will differ greatly based on your home situation, based on whether you are single with no children, married with no children, or married with children but your spouse is at home, etc.

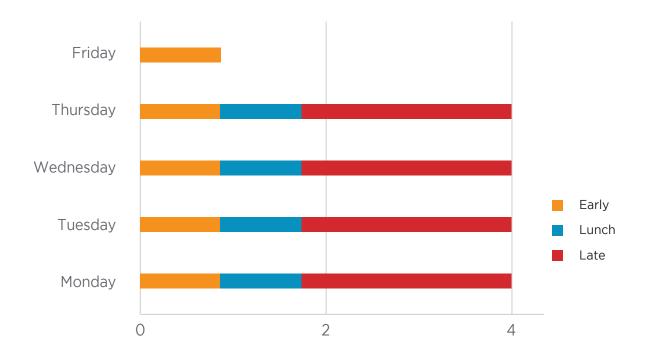

Somewhere between the hours of 7:00 p.m. to -11:00 p.m. set aside the time to study. Study at a coffee shop, the library, stay late at work, do it at home...whatever works for your situation.

Study 2 hours.

Do this four days a week. Have lunch out Friday and take Friday night off.

Repeat for 7 Weeks!
